SUMMARY

Creative and Detail-Oriented Interaction Designer with experience in Graphic Design. Proficient in Adobe Creative Suite, UI design, and Visual storytelling, seeking opportunities to leverage design skills in a dynamic team environment.

EXPERIENCE

Teamarcs Technologies **Dec 2024 - Jan 2025**

Graphic Design Intern

- Created social media content and graphics, designed business cards and print materials, improved skills in Adobe Photoshop, Illustrator, and Figma, and contributed to UI design by enhancing layouts and user experience.

WITH festival **February 2025**

Volunteer

- Supported graphic design and marketing efforts, coordinated on-stage logistics, and collaborated on research with team and department heads.

Serendipity Art Festival **February 2025**

Volunteer

- Supported artists with installations, set design, spatial setup, coordination, and problem-solving during live exhibitions and public-facing event environments.

PROJECTS

Packaging Design **April 2025**

- Designed a conceptual packaging system for a compact hygiene dryer, focusing on clarity, protection, and sustainability. The project explored labelling hierarchy, user instructions, and regulatory information layout for an electronic consumer product.

Publication Design **July 2025**

- Used InDesign and Illustrator to design covers, spreads, and dividers, applying consistent typography and colour theory to build a strong visual identity.

3D/VR World Building **September 2025**

- Developed 3D models in Blender and Unity for an engaging VR experience, gained proficiency with VR headsets, and conducted user testing to assess usability and immersion.

SKILLS

- UI Design
- Identity Design
- UX Research
- Attention to Detail
- User-Centered Thinking
- Video Editing
- Sound Design
- Prototyping
- Digital Art
- Adaptability
- Fast Learning
- 3D Modelling
- Team Collaboration
